Adobe InDesign

Adobe Illustrator

Adobe Photoshop

Adobe Premiere Pro

Adobe Audition

Wordpress

Squarespace

As a quirky, creative person who likes to think outside the box, I love working in a team environment, coming up with new innovative ideas, accepting challenges and working to deadlines.

Following the completion of my degree I was fortunate enough to land the position with DXC in Macquarie Park, straight from uni 16 months ago, creating the opportunity for me to relocate from my family home in Newcastle to Sydney.

My time with DXC has allowed me to hone my design skills through visual story telling, creating high quality and professional bid covers, diagrams, presentations, posters, email and website banners along with editing video and audio content for high profile clients in multiple industries. Working with Writers, Sales Executives, Bid Managers and Sales Leaders I conceptualised designs to appeal to various industries across Government, Mining and Natural Resources, Banking, Health and Insurance sectors.

I have also produced a small amount of freelance work; designing and printing custom made cards, brochures and calendars.

Unfortunately in the current climate, the company has experienced a down turn resulting in the decision to make a number of positions redundant, including mine. As a result I am currently looking for full time work as a Graphic Designer.

Hardworking, honest and trustworthy together with strong work ethics, I feel I would be an asset to your company.

### Work Experience

- 2020
- 2019
- 2018
- 2016
- 2012
- DXC Technology is a large Global IT company that provides complex solutions and digital transformation services to large corporations. My position within the Deal Hub Team of the sales sector helped me gain valuable experience.
- Whilst working I studied at the University of Newcastle to get my Bachelor of Visual Communication and Design.
- I worked for several years as a part-time Woolworth's employee. I had a variety of roles from being a service operator to bakery assistant and for one year I was a food taster. Woolworth's gave me necessary skills in communication and time management.

## Graphic Designer

### About Me

An avid reader of books, I love various genres from fantasy to sci-fi, action, adventure and romance.

I am an animal lover, I especially have a soft spot for dogs.

Originally from Newcastle, I moved to Sydney following completion of my degree, to pursue a career as a graphic designer.

Throughout high school I competed in several regatta's and won three gold medals for rowing. These days my exercise consists of daily walks and training with my partner.

I often visit Museums and Art Galleries. My year 12 Major Artwork was based on the David Bromely painting style.

Before Covid 19 restrictions I regularly went recreational ice skating on the weekends.
